

## Контрольное домашнее задание 2

**В КДЗ 2 следует выполнить следующие задания**

1. Записать булевы выражения A, B и C в стандартных обозначениях
2. Проверить, эквивалентны ли A и B
3. Привести B и C к КНФ и ДНФ
4. Написать двойственное к C выражение в виде многочлена Жегалкина
5. Указать, при каких значениях переменных B истинно
6. Проверить A на линейность и монотонность
7. Проверить, не являются ли A, B и C тавтологиями

1

$$A = \text{and}(\text{or}(a, \text{not}(b), \text{not}(c)), \text{or}(a, c, \text{not}(b)), \text{or}(c, b, \text{not}(a)), \\ \text{or}(b, \text{not}(a), \text{not}(c)))$$

$$B = \text{and}(\text{not}(a), \text{not}(b), \text{not}(c))$$

$$C = c b + b + a b + 1 + a$$

2

$$A = \text{and}(\text{or}(a, c, \text{not}(b)), \text{or}(c, \text{not}(a), \text{not}(b)), \text{or}(b, \text{not}(a), \text{not}(c)))$$

$$B = \text{or}(\text{and}(a, b, \text{not}(c)), \text{and}(a, c, b), \text{and}(a, \text{not}(b), \text{not}(c)), \\ \text{and}(a, c, \text{not}(b)), \text{and}(c, b, \text{not}(a)), \text{and}(c, \text{not}(a), \text{not}(b)))$$
